K-1320 Battery Grip

The safe way to handle heavy truck batteries!

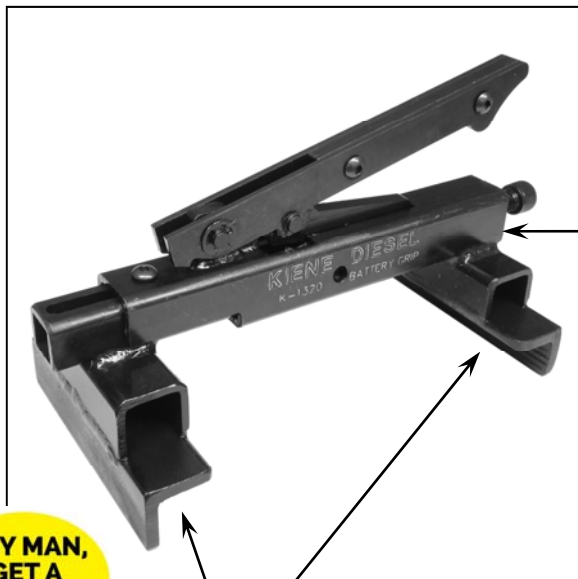

Heavy duty truck batteries are tough to handle. They're heavy, awkward . . . and when they're squeezed into a battery box, it's tough to get a grip on them for lifting . . . and lifting by the terminal posts will damage the battery . . .

The **K-1320 Battery Grip** solves these problems! It makes heavy duty battery removal and handling safe and easy.

Fits all heavy-duty truck batteries

Compact design fits into tight spots

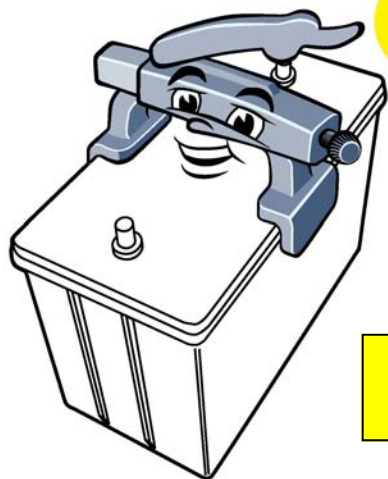

Ergonomic handle for comfortable lifting and transporting

HEY MAN, GET A GRIP!!

Textured grippers and powerful, controlled squeeze provide a safe, secure grip

Safety and Cost Savings from **KIENE**

Easy and quick to use . . . Clamp it on and you're ready to lift!

MADE IN THE U.S.A.
