K-1390 Brake Lining Gauge

Kiene's new **Brake Lining Gauge** makes measuring the thickness of brake shoe linings fast, easy, and convenient. The unique slider captures measurements in hard to see locations so you can read the tool when you want.

- **User-friendly scale is fast and accurate to 1/32"**
- **Measure linings down to 7/32" thick**
- **Works without removing brake drum or dust cover**
- **Schedule maintenance when it's convenient, before excessive wear becomes a problem**

EASY AS...

Close tool and
set slider...

Open tool to take measurement—
Slider holds value

Read measurement
